

WE'RE Prepared

And it's important
that you are, too.

NC Public Power

Hurricane season is here and North Carolina is certainly no stranger to the devastation that hurricanes can cause.

In the event of a power outage, NC public power crews are trained and ready to help restore power as quickly as possible.

Be prepared.

Planning ahead is critically important in remaining safe during a storm. Below is a list of items to have ready before a storm strikes:

- ☐ Non-perishable food, medicine, baby supplies and pet food
- ☐ Bottled water; 1 gallon of water per person per day
- ☐ Emergency supplies such as flashlight, battery-operated radio, batteries, extension cords, emergency generators
- ☐ Cash
- ☐ An evacuation plan and/or family emergency plan, including a plan for caring for your pet if you must evacuate. Most public shelters do not accept pets.
- ☐ Full tank of gas in the car
- ☐ First aid kit and essential medications

For more information on how to prepare for severe weather, visit Storm Central at www.ncpublicpower.com.
